Profile Summary

Motivated and detail-oriented Computer Science student with strong foundational knowledge in Java and Advanced Java. Proficient in Java, Python, SQL, and front-end technologies. Experienced in building real-time academic projects and collaborating on software development. Passionate about learning and contributing to team success in agile environments.

Education

Bachelor of Engineering in Computer Science 2025
VSMSRKIT, Nipani
Current Grade: 95.5%

PUC, Morarji Desai PU Science College, Kalli 2021
Percentage: 84.84%

SSLC, Morarji Desai Residential School, Yellapur 2019
Percentage: 84.48%

Technical Skills

- **Languages:** Core Java, SQL, HTML, CSS, JavaScript
- **Frameworks/Libraries:** Hibernate, JDBC, Servlets , JSP
- **Tools & Platforms:** Git, Eclipse
- **Databases:** MySQL, Oracle
- **Concepts:** OOPs, DBMS

Projects

Traffic Management System (Java, MySQL) 6-12 months

- Developed an Intelligent Traffic Management System to optimize traffic flow and enhance road safety using software.
- Implemented real-time monitoring and automated traffic signal control.

SMS Alert Attendance System using Face Recognition (Pycharm) 2024

- Created a system to automate attendance tracking and notify parents via SMS using face recognition technology.
- Utilized Matplotlib, webcam, and Opencv for real-time attendance management.

Internship

Java and Advanced Java Intern, Varcons Pvt Ltd, Bangalore 2022

- Gained hands-on experience in Java development, focusing on object-oriented programming and software design patterns.

Core Java and Web Development Intern, Fuel Technologies, Hubli 2024

- Worked on scalable Java applications and database-driven web applications.

Java Full Stack Intern, TAP Academy, Bangalore 2025

- Hands-on experience with web application development using Servlet,JSP and JDBC.

Courses & Certifications

- Full Stack Web Development Training – Hands-on with Java, Hibernate, MySQL.
- Published Project: SMS Alert Attendance System Using Face Recognition 2025
  Developed and published a project utilizing face recognition technology for automated attendance tracking and SMS notifications to parents/guardians.
